**AMENDMENTS TO THE SPECIFICATION:**

Please REPLACE paragraph [0022] on page 6 of the Substitute Specification filed on December 23, 2010 with the following amended paragraph:

[0022] FIGS. 5A and 5B shows how a neutral position can be set using coil springs of different urging forces in accordance with an embodiment of the present invention.

Please REPLACE paragraph [0066] on page 16 of the Substitute Specification filed on December 23, 2010 with the following amended paragraph:

[0066] In the case where the urging forces of the first and second coil springs 12a, 12b are the same, the neutral position can be easily set. However, if the urging forces are different, the neutral position should be set carefully. With reference now to FIGS. 5A and 5B, description will be made of how the neutral position can be set using coil springs 12a, 12b that have different urging forces.
